

# Chapter I: Dashboards

This chapter explains the step-by-step instructions for using the dashboard features on the Contraceptive Logistics Management Information system.

## In this chapter, you will learn about:

1. The cLMIS Dashboard
2. Dashboard Filters
3. Dashboard Reports

### Before you begin...

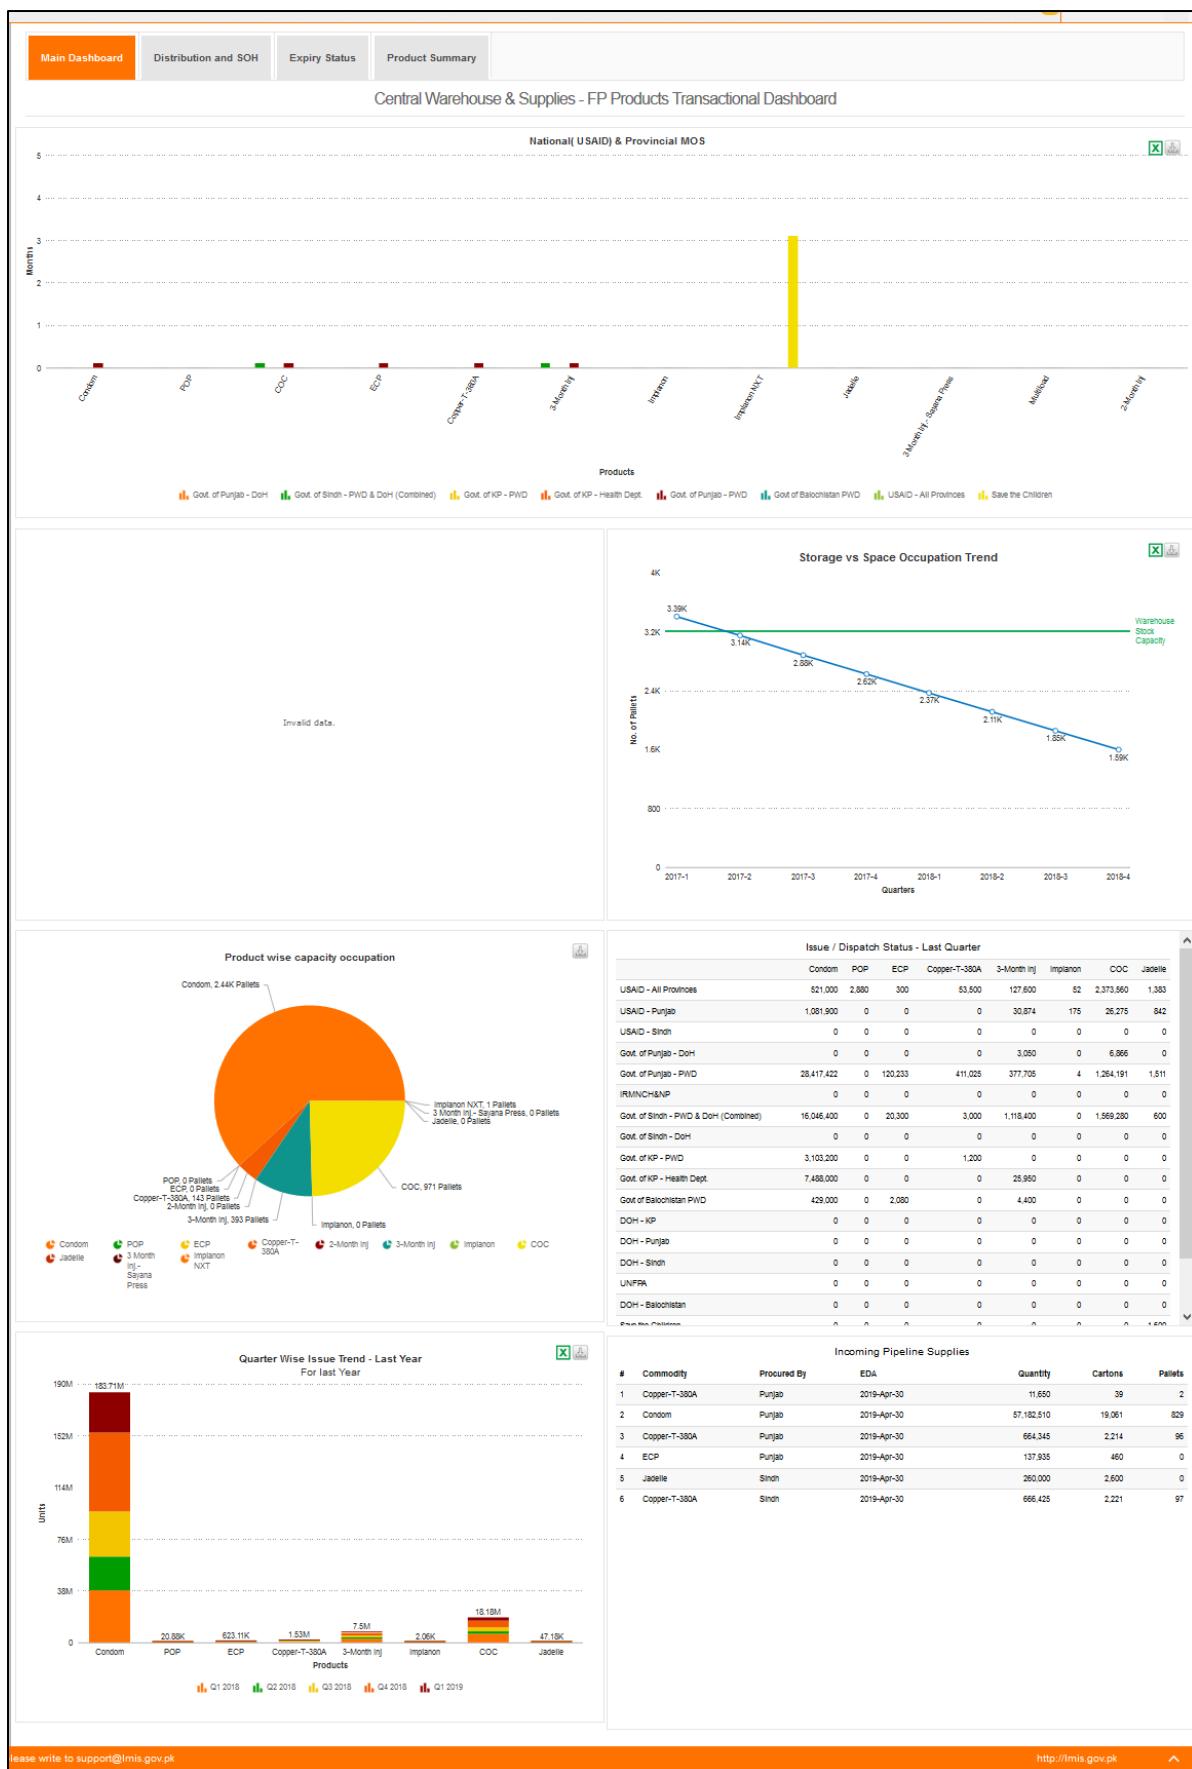

This chapter explains the Dashboard features visible to the District and Guest Users. For information on the Dashboard features visible to the Central Warehouse User, refer to **“Chapter 14: Logging in to cLMIS as the Central Warehouse User”** for more information.

## cLMIS Dashboard

The Dashboard displays self-updating and interactive visual reports for your data for the important performance indicators. The dashboard includes the following reports:

### FP Products Dashboards

The FP products dashboard is designed to provide 360 view of FP Supply chain. It has four tabs to bifurcate information for better user's experience.

The dashboard provides the following tabs:

1. Main Dashboard
2. Distribution and SOH
3. Expiry Status
4. Product Summary

## Main Dashboard

Main Dashboard is focused on stock at Central warehouse, its storage utilization, stakeholder wise stock and stock issuance details.

- **National (USAID) & Provincial MOS:** graph displays the National and Provincial months of stock for each family planning product.
- **Storage VS Space Utilization Trend:** The warehouse's stock capacity versus the space occupation trend is displayed in this graph.
- **Product Wise Capacity Occupation:** the product-wise capacity occupation is displayed in a pie-chart.
- **Issue / Dispatch Status - Last Quarter:** the issue / dispatch status for the previous quarter for each FP product and stakeholder is displayed in a table.
- **Quarter-Wise Issue Trend:** the quarter-wise issue trend is displayed for each quarter for the previous year.
- **Incoming Pipelines:** the incoming pipeline supplies are displayed in a table in this report.

## Distribution and SOH

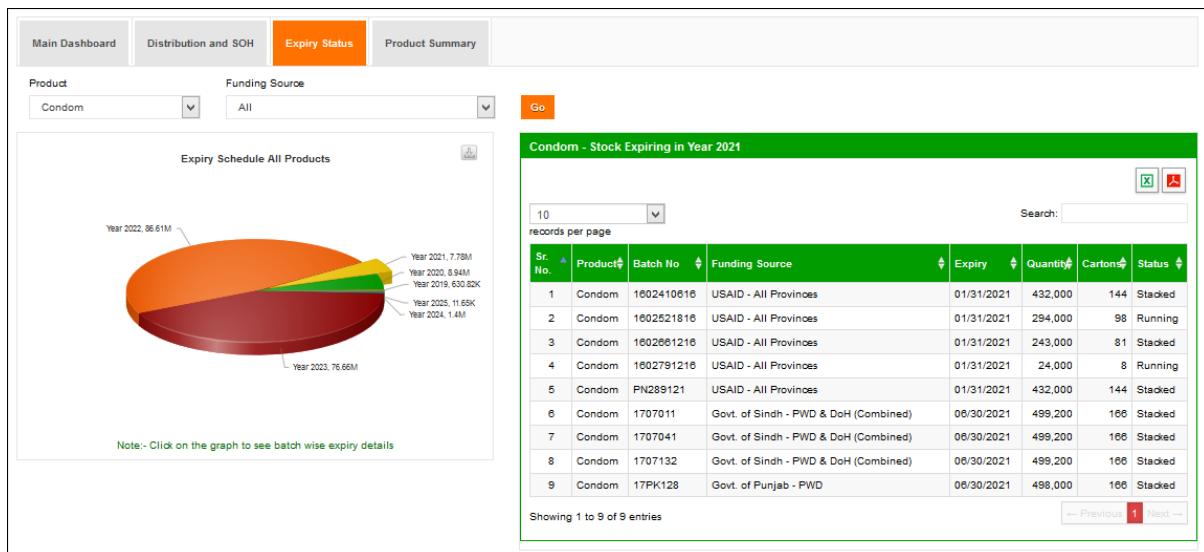

Distribution and SOH tab provides graphical information for product wise SOH and Issue for a specific stakeholder.

The user can specify the date range, select funding source and then click **Go** to populate data in the report.

## Expiry Status

Expiry Tab provides PIE Graph information of stakeholder and its batch wise stock along with expiry information. PIE graph is drilled-down, and user can click any expiry PIE to view the detailed information.

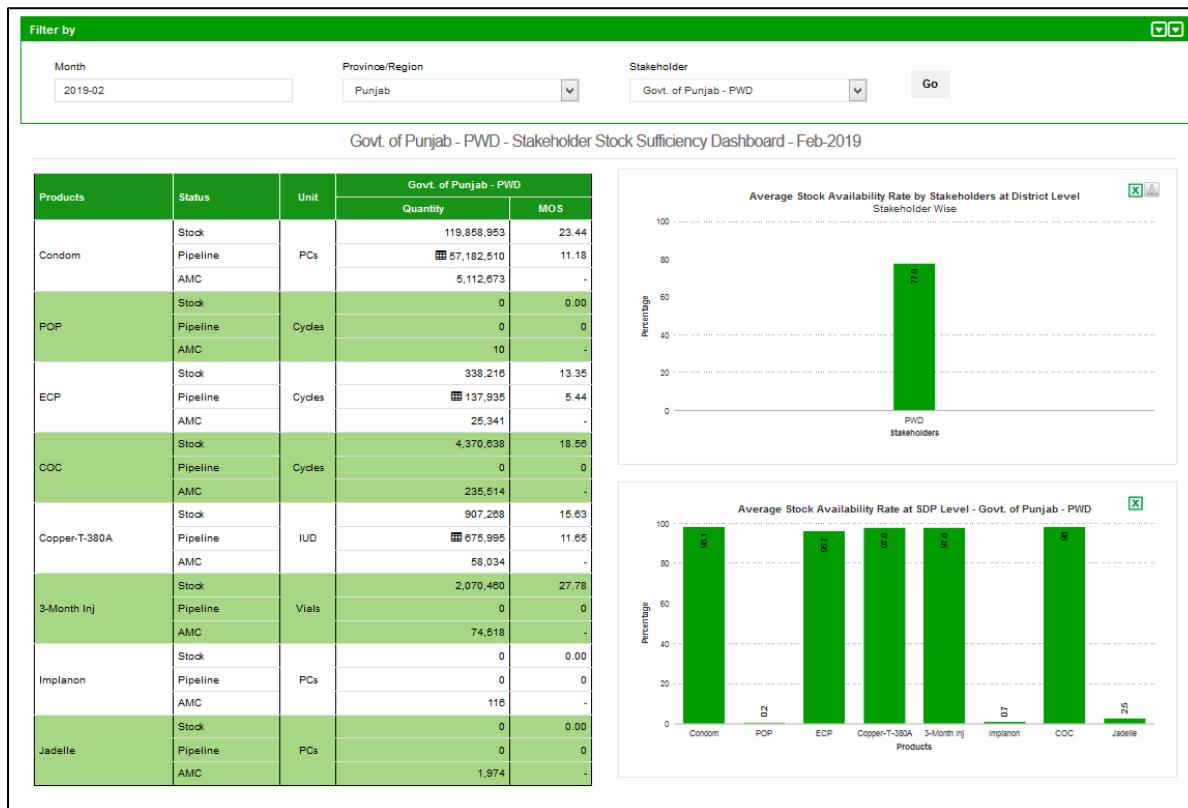

## Product Summary

To view the complete stock status, Product Summary Tab is designed. It provides details related to Opening, Received, Issue, Adjustment (+ve/-ve) and Closing balance of ALL or specific stakeholder.

The screenshot shows the 'Product Summary' tab. At the top, there are dropdown menus for 'Date From' (01/01/2019), 'Date To' (27/03/2019), and 'Funding Source' (All), with an orange 'Go' button. This section is highlighted with a red box. Below is a table titled 'All - Stock Summary (01/01/2019 to 27/03/2019)' with columns for Sr. No., Product, Unit, Opening Quantity, Received Quantity, Issued Quantity, Adjustments (+/-), and Closing Quantity. The table lists 10 products, each with a green background. The last row shows 'Showing 1 to 10 of 10 entries'.

# Provincial Stock Sufficiency Dashboard

User can view the stock sufficiency of province using this dashboard report.

The user can specify the **Month**, **Province** and **Stakeholder**, and then click **Go** to display the dashboard report.

The user can view the following reports:

- The stock status, stock in pipeline and AMC for each product including the months of stock.
- The average stock availability rate for each stakeholder.

## National Stock

The nation-wide stock is displayed in this report. The user can filter province wise stock data by selecting the province and then click **Go**.

The information in the report is segregated by province and stakeholder along with the opening and closing balance data. This report gives an overall stock availability for each province and their stakeholders.

### Provincial Utilization of Federal Stocks Report

## Dashboard

The dashboard displays stock situation for family planning products for public and private sector.

Filters enable you to sort and view relevant data using different selection criteria. Here is the list of filters available:

Month	Year	Office Level	Province	District	Product
April	2016	District	Khyber Pakhtunkhwa	Peshawar	All Without Condom

- Month:** select the month from the drop-down list.
- Year:** select the year from the drop-down list.
- Office Level:** select the Office Level from the drop-down list.
- Province:** select the Province from the drop-down list.
- District:** select the district for which you want to view report.
- Product:** users can either select all products with or without condoms because the logistic analysis of condoms changes the maximum range of graphs to a level where analysis of other products is not shown properly.

You can click **Go** to view reports based on the applied filters.

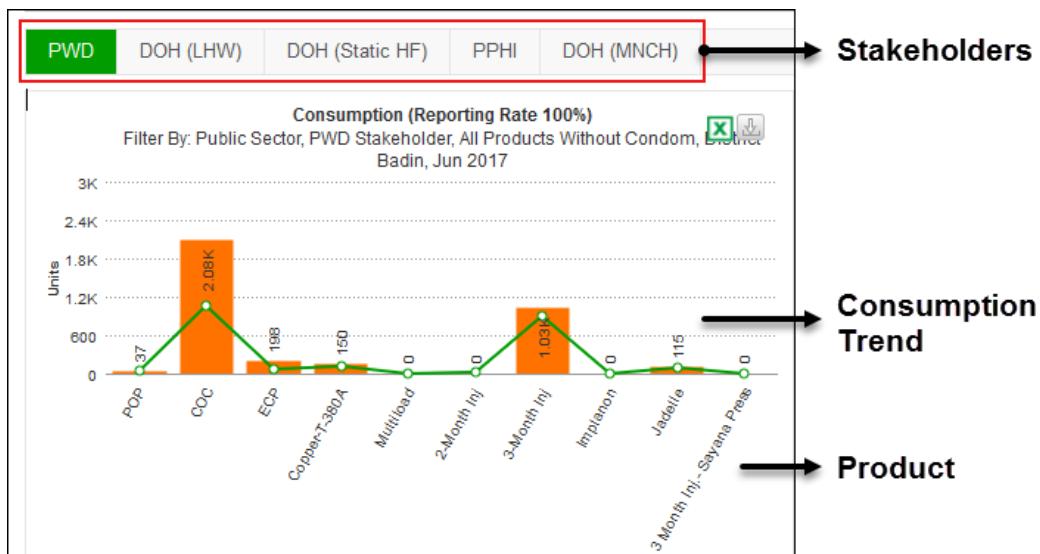

This Public-sector dashboard allows users to quickly view consumption and stock analysis and trends the selected public-sector stakeholders which include: PWD, DOH (LHW), DOH (Static HF), PPHI, DOH (MNCH). The private sector stakeholders include: GS, MSS, FRAP, DKT.

The available reports include:

- [Consumption Report](#)
- [Central Warehouse Distribution and Stock on Hand](#)
- [Stock Out vs Over Stock Reporting Rate](#)
- [Couple Year Protection](#)

## Consumption vs Average Monthly Consumption (AMC)

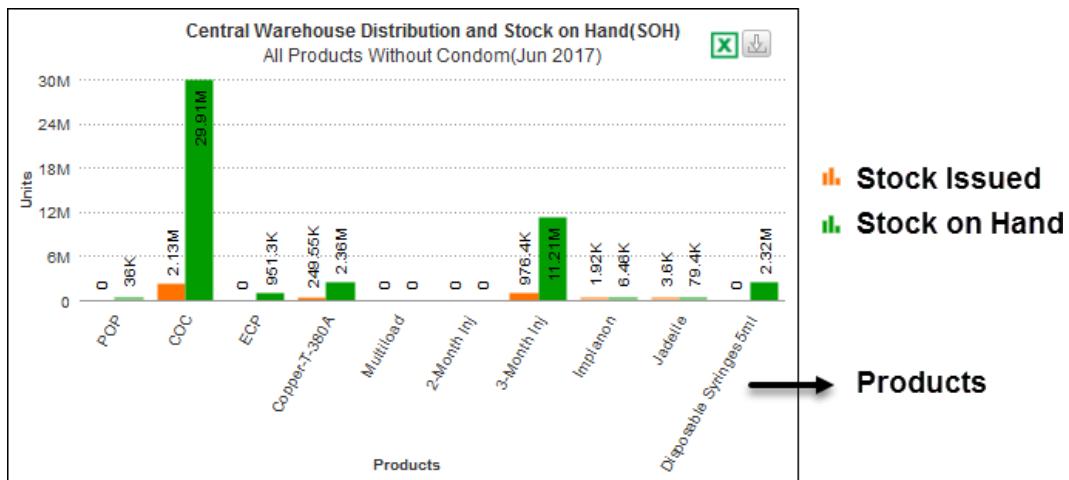

This report displays the comparison between consumption and average monthly consumption of all products for the selected stakeholder and also shows the reporting rate on which this analysis is drawn.

You can export this report in JPEG, PNG, PDF and SVG format by clicking icon on the top right corner. You can also export the report in Excel format by clicking icon.

## Central Warehouse Distribution and Stock on Hand

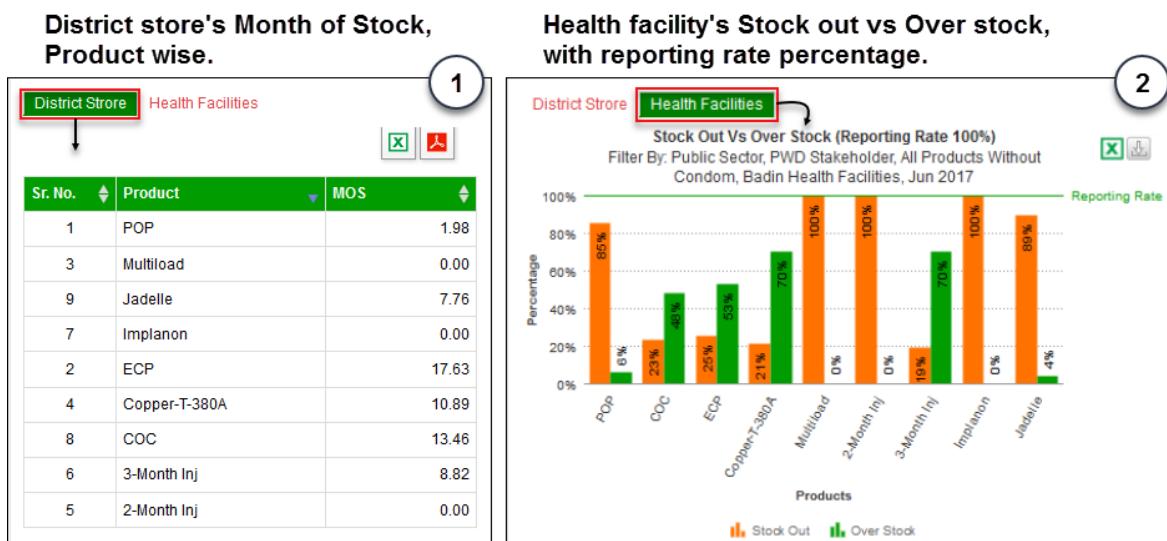

This report shows the comparison between the issued stock and the stock on hand (SOH) for all products in the central warehouse, as shown in the image below:

You can export this report in JPEG, PNG, PDF and SVG format by clicking icon on the top right corner. You can also export the report in Excel format by clicking icon.

## Stock Out vs Over Stock

This report displays the stock out and over stock rates in district/sub-district (field) stores for different products. This also shows the reporting rate on which this analysis is drawn. Users can view the comparison graph for stock out and over stock of products on the horizontal axis and District percentage on the vertical axis.

You can export this report in JPEG, PNG, PDF and SVG format by clicking icon on the top right corner. You can also export the report in Excel format by clicking icon.

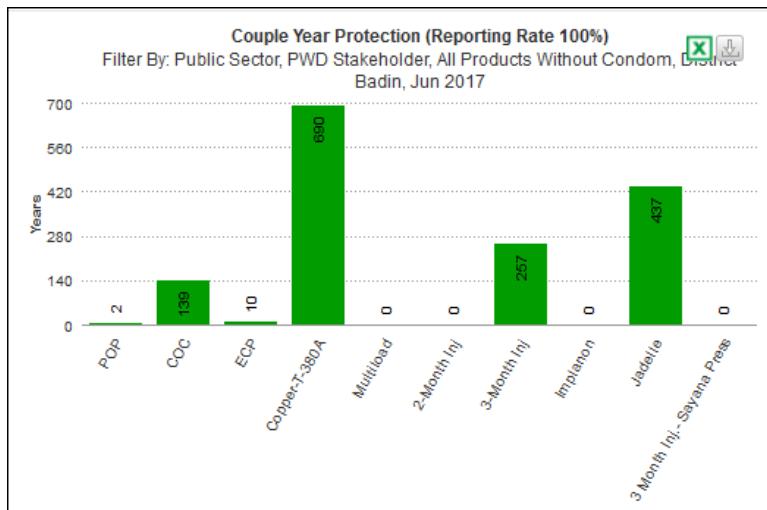

## Couple Year Protection (CYP)

This report displays the couple year protection statistics for the selected month for each contraceptive product.

**Couple Year Protection** is the estimated protection provided by contraceptive methods during a one-year period, based upon the volume of all contraceptives sold or distributed free of charge to clients during that period.

The CYP report is displayed below:

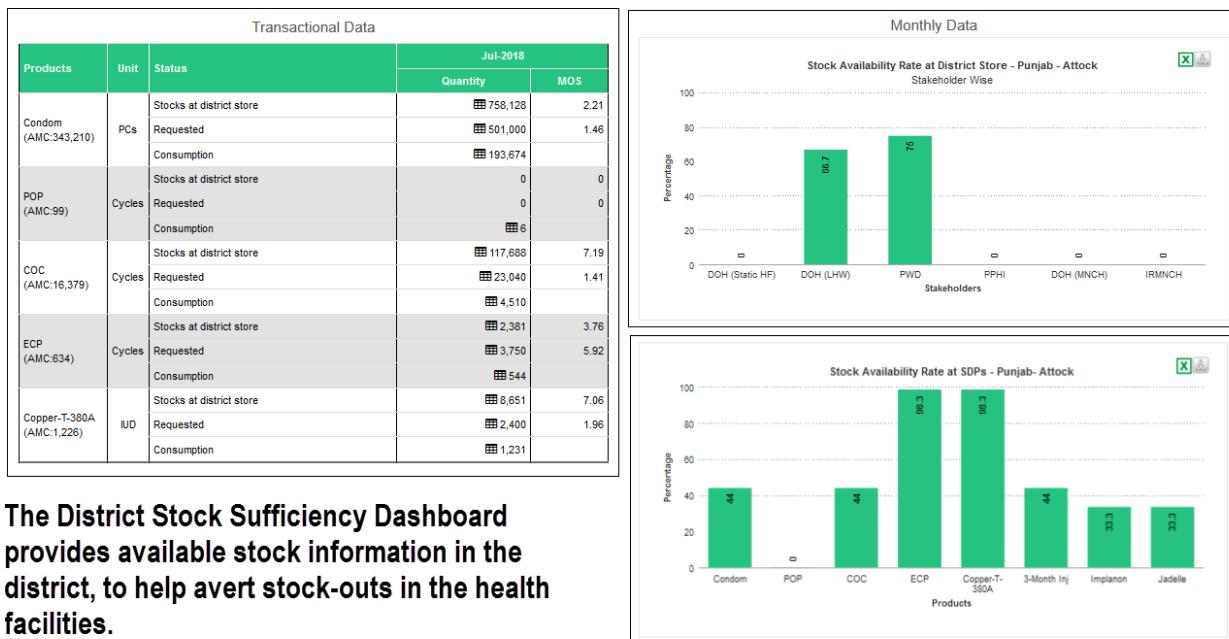

You can export this report in JPEG, PNG, PDF and SVG format by clicking icon on the top right corner. You can also export the report in Excel format by clicking icon.

## District Stock Sufficiency

District Stock Sufficiency Dashboard for stock visibility at the district level, stock monitoring decision making and to avert stock-outs at service delivery point (SDP)/health facility level.

The District Stock Sufficiency Dashboard will help improve the data visibility of inventory management information at the district level and assist in averting stock-outs at the health facility levels. The dashboard provides information on major indicators like stock on hand, requested stock and stock consumption. The dashboard also provides visual reports on the stock situation of district, its Service Delivery Points (SDP) along with the Stakeholder wise breakup of stock and the Product wise stock availability for the district. The reports enable the user to drill-down to the health facility level to get information on stock levels at the individual SDPs.

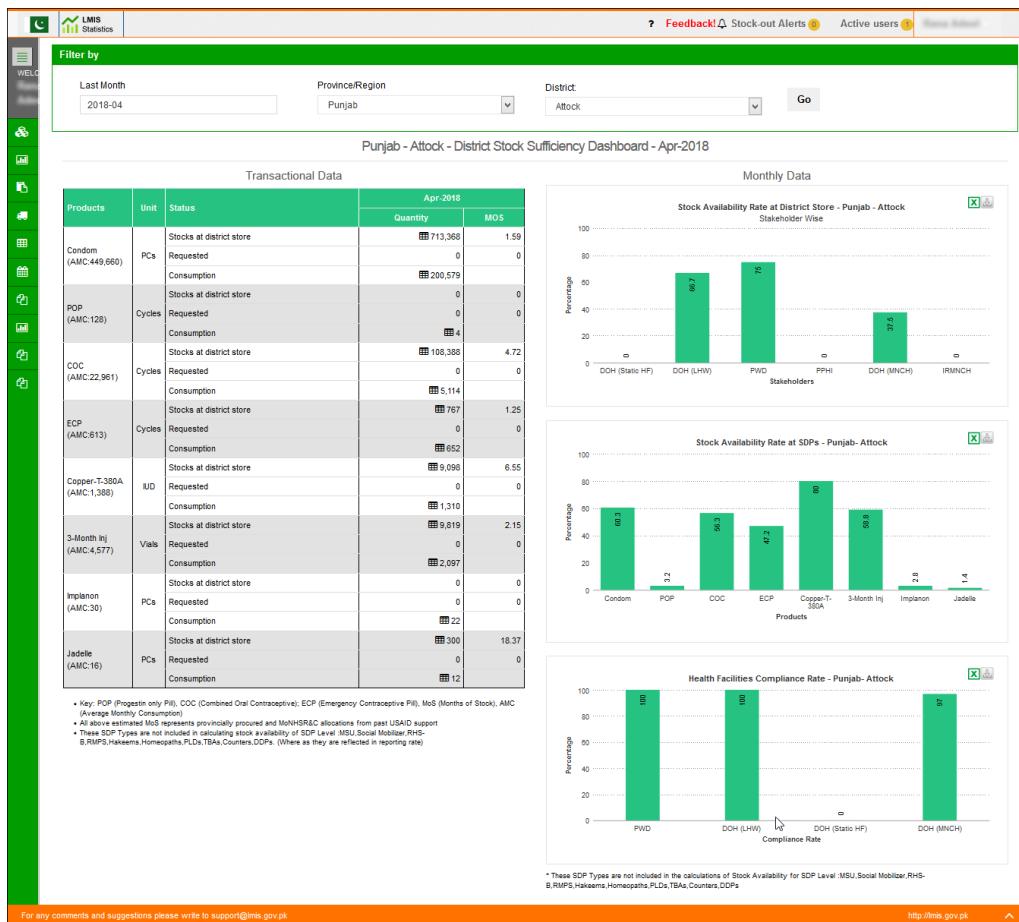

**The District Stock Sufficiency Dashboard provides available stock information in the district, to help avert stock-outs in the health facilities.**

The prominent features of the District Stock Sufficiency Dashboard include:

- A stock over view of the district including indicators for Current stock, requisitioned Stock and Consumption.
- Breakdown of stock based on Stake holders, products and stock availability at SDP level. All reports can be drilled down to get further detailed information about products.

On the left, the Transactional Data table displays the stock situation at the selected district. The district and health facility data reporting is compiled monthly, therefore, the stock data of districts and health facilities on the right will be displayed in the next month, e.g., data related to March will be displayed in April after data entry is completed.

## I. In order to populate District Stock Sufficiency Dashboard, select the desired filter options.

Specify the Month, Province and District and then click **GO**.

The options include:

- **Date:** select the required date from the calendar tool.
- **Province:** specify the desired province.
- **District:** specify the district.

## 2. Click **GO** to populate the dashboard graphs.

The District Stock Sufficiency Dashboard populates, as shown in the image below:

**Dock or expand Side menu from here.**

Province/Region: Punjab | District: Attock | Go | Filter

Punjab - Attock - District Stock Sufficiency Dashboard - Apr-2018

**Transactional Data Table**

Products	Unit	Status	Apr-2018	
			Quantity	MOS
Condom (AMC:449,660)	PCs	Stocks at district store Requested Consumption	713,368 0 200,579	1.59 0 0

\* Key: POP (Progestin only Pill), COC (Combined Oral Contraceptive Pill), ECP (Emergency Contraceptive Pill), MoS (Months of Stock), AMC (Average Monthly Consumption)  
 \* All MoS values are MoS reports presented provincially procured and MoH/BSAC allocations from past USAID support.  
 \* These SDP Types are not included in calculating stock availability of SDP Level: MSU, Social Mobilizer, RHS, B, RMPS, Hakeems, Homeopaths, PLDs, TBAs, Counters, DDPs. (Where as they are reflected in reporting rate)

**Stock Availability filtered based on Stakeholders**

**Stock Availability at SDPs**

**Stock Availability Graph for Health Facilities**

For any comments and suggestions please write to support@mis.gov.pk

http://mis.gov.pk

The following sections explain each of the analysis reports available in the District Stock Sufficiency Dashboard.

## Transactional Data Table

The Transactional Data table provides the status of stock availability at the district level and pipeline for each product for the selected province.

Transactional Data					
Products	Unit	Status	Apr-2018		
			Quantity	MOS	
Condom (AMC:449,660)	PCs	Stocks at district store	713,368	1.59	
		Requested	0	0	
		Consumption	200,579		
POP (AMC:128)	Cycles	Stocks at district store	0	0	
		Requested	0	0	
		Consumption	4		
COC (AMC:22,961)	Cycles	Stocks at district store	108,388	4.72	
		Requested	0	0	
		Consumption	5,114		
ECP (AMC:613)	Cycles	Stocks at district store	767	1.25	
		Requested	0	0	
		Consumption	652		
Copper-T-380A (AMC:1,388)	IUD	Stocks at district store	9,098	6.55	
		Requested	0	0	
		Consumption	1,310		
3-Month Inj (AMC:4,577)	Vials	Stocks at district store	9,819	2.15	
		Requested	0	0	
		Consumption	2,097		
Implanon (AMC:30)	PCs	Stocks at district store	0	0	
		Requested	0	0	
		Consumption	22		
Jadelle (AMC:16)	PCs	Stocks at district store	300	18.37	
		Requested	0	0	
		Consumption	12		

\* Key: POP (Progestin only Pill), COC (Combined Oral Contraceptive); ECP (Emergency Contraceptive Pill), MoS (Months of Stock), AMC (Average Monthly Consumption)  
 \* All above estimated MoS represents provincially procured and MoNHSR&C allocations from past USAID support  
 \* These SDP Types are not included in calculating stock availability of SDP Level 1 MSU, Social Mobilizer, RHS-B, RMPS, Hakeems, Homeopaths, PLDs, TBAs, Counters, DDPs. (Where as they are reflected in reporting rate)

Stock availability information is displayed for each product.

The information includes:

- **Products:** display the FP product type.
- **Unit:** displays the unit measure for each product.
- **Status:** displays the following stock information:
  - **Stock at district store:** displays the stock currently available at the selected district store.
  - **Requested:** displays the requested stock.
  - **Consumption:** displays the consumption of the district.
- **Quantity:** displays the quantity of available stocks and the stocks in pipeline.

Hover over the icon to view the stock on hand breakdown by stakeholder.

- **MOS:** displays the months of stock for each product with different colors to identify level of severity. The legends include:

Stock Out (0 - 4.99)

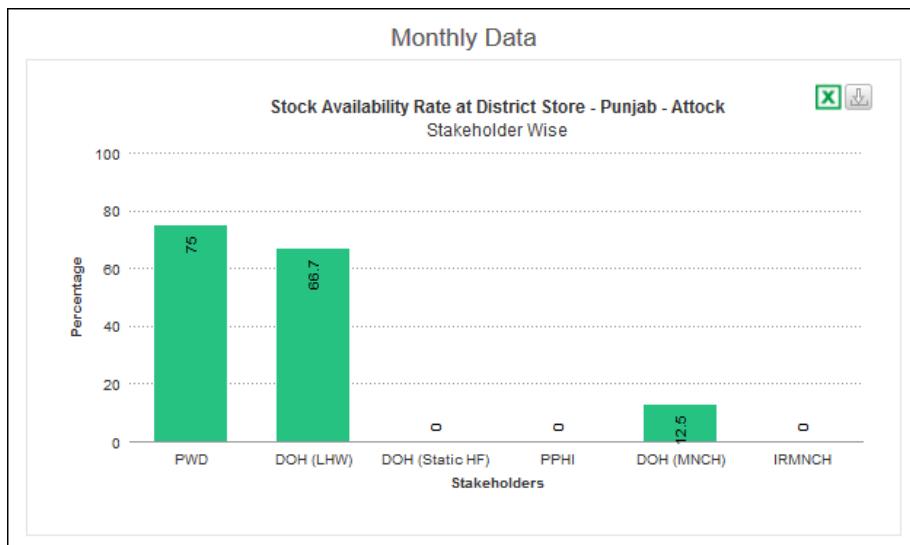

Under Stock (5 - 6.99)

Satisfactory (7 - 14.99)

Over Stock (15 - 9999999)

## Monthly Data Table

The Monthly Data table is a comprehensive report that shows the stock availability rate at district stores of the selected province by stakeholder. The image below describes the information available in the graph report.

The user can click to export the graph to an Excel format and click to export the graph as a chart.

To view the stock availability rate at District store:

- I. In the Stock Availability Rate at District Store graph, click any of the green bars.

The MOS at SDPs of District dialog displays, as shown in the image below:

MOS at SDP's of District : Attock - PWD			
Sr No	Product	Months of stock - (MOS)	
1	Condom	1.79	
2	POP	0	
3	ECP	1.26	
4	Copper-T-380A	7.59	
5	3-Month Inj	5.33	
6	Implanon	0	
7	COC	1.58	
8	Jadelle	18.37	

The user can view the following information:

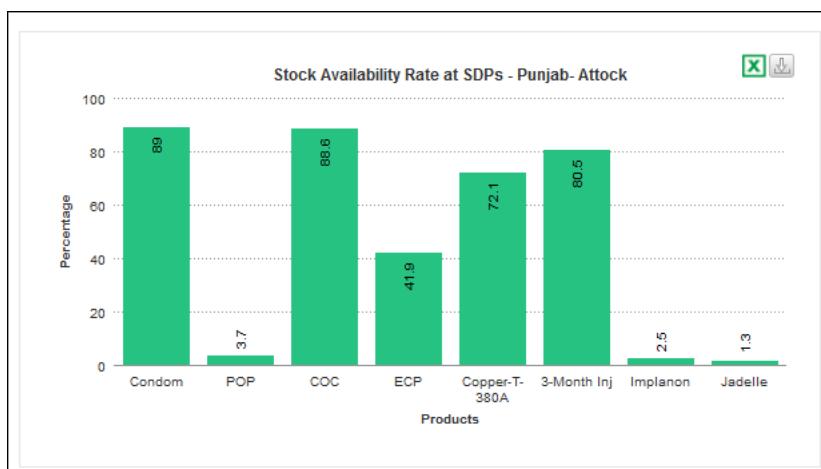

- **Product:** displays the products.

- **Months of Stock:** displays the months of stock information for each product with different colors to identify level of severity. The legends include:

- Stock Out (0 - 4.99)
- Under Stock (5 - 6.99)
- Satisfactory (7 - 14.99)
- Over Stock (15 - 9999999)

## SDP Level Stock Availability

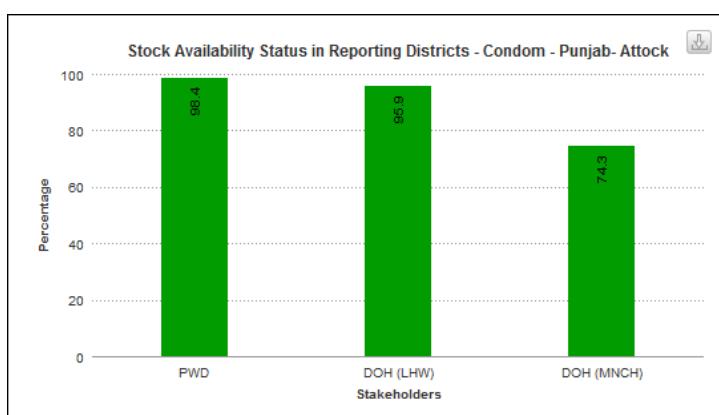

This report shows the average stock levels at SDPs for each Product, for the selected month.

The user can click [X] to export the graph in an Excel format and click [down arrow] to export the graph as a chart.

To analyze the product-wise SDP stock sufficiency:

- I. In the Stock Availability Rate at SDPs graph, click any of the green bars to view stakeholder wise stock availability rate of each product, as shown in the image below:

2. Click on the product to further drill down to view the selected product's availability at each SDP for the selected stakeholder.

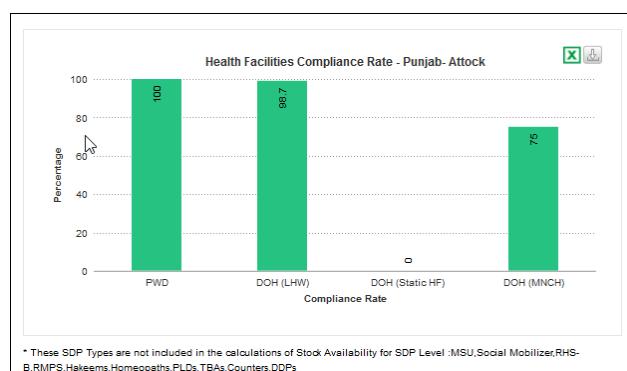

MOS at SDP's of District : Attock - PWD - Condom						
Sr No	District	Warehouse	Stock on hand - (SOH)	Months of stock - (MOS)		
1	Attock	Ahmedal	12,130	3.93	<span style="background-color: #ADD8E6;"></span>	
2	Attock	Akhori	12,650	5.01	<span style="background-color: #ADD8E6;"></span>	
3	Attock	Attock-II	14,385	3.97	<span style="background-color: #ADD8E6;"></span>	
4	Attock	Attock-III	12,890	3.72	<span style="background-color: #ADD8E6;"></span>	
5	Attock	Basal	5,045	2.68	<span style="background-color: #008000;"></span>	
6	Attock	Community Based Family Planning Workers (CBFPWs)	0	0	<span style="background-color: #FF0000;"></span>	
7	Attock	Dhurnal	7,260	3.20	<span style="background-color: #ADD8E6;"></span>	
8	Attock	Dukhnair	13,100	4.09	<span style="background-color: #ADD8E6;"></span>	
9	Attock	Fateh Jang-II	16,080	5.70	<span style="background-color: #ADD8E6;"></span>	
10	Attock	FHC DHQ Attock	16,700	3.66	<span style="background-color: #ADD8E6;"></span>	
11	Attock	FHC THQ Fateh Jang	10,750	4.11	<span style="background-color: #ADD8E6;"></span>	
12	Attock	FHC THQ Hazro	19,880	2.76	<span style="background-color: #008000;"></span>	
13	Attock	FHC THQ Jand	11,450	4.37	<span style="background-color: #ADD8E6;"></span>	
14	Attock	FHC THQ Pindi Gheb	9,380	3.20	<span style="background-color: #ADD8E6;"></span>	

The user can view the following information:

- **District:** displays the districts in the province.
- **Warehouse:** displays the area where the warehouse is located.
- **SOH:** displays the Stock on Hand for the product.  
Stock on Hand is the actual stock available at the SDP.
- **Months of Stock (MOS):** displays the months of stock for the product.  
Months of stock refers to the sufficiency of stock in number of months.

## Health Facility Compliance Rate

This report shows the health facilities compliance (reporting) rate for each stakeholder. The user can also drill-down to view the individual health facility reporting status.

The user can click to export the graph in an Excel format and click to export the graph as a chart.

To view the health facilities reporting status:

1. In the Health Facility Compliance Rate graph, the green bars represent the compliance (reporting) rate of health facilities for a stakeholder.
2. Click on a stakeholder (green bar) to further review the Reporting Status of each health facility.

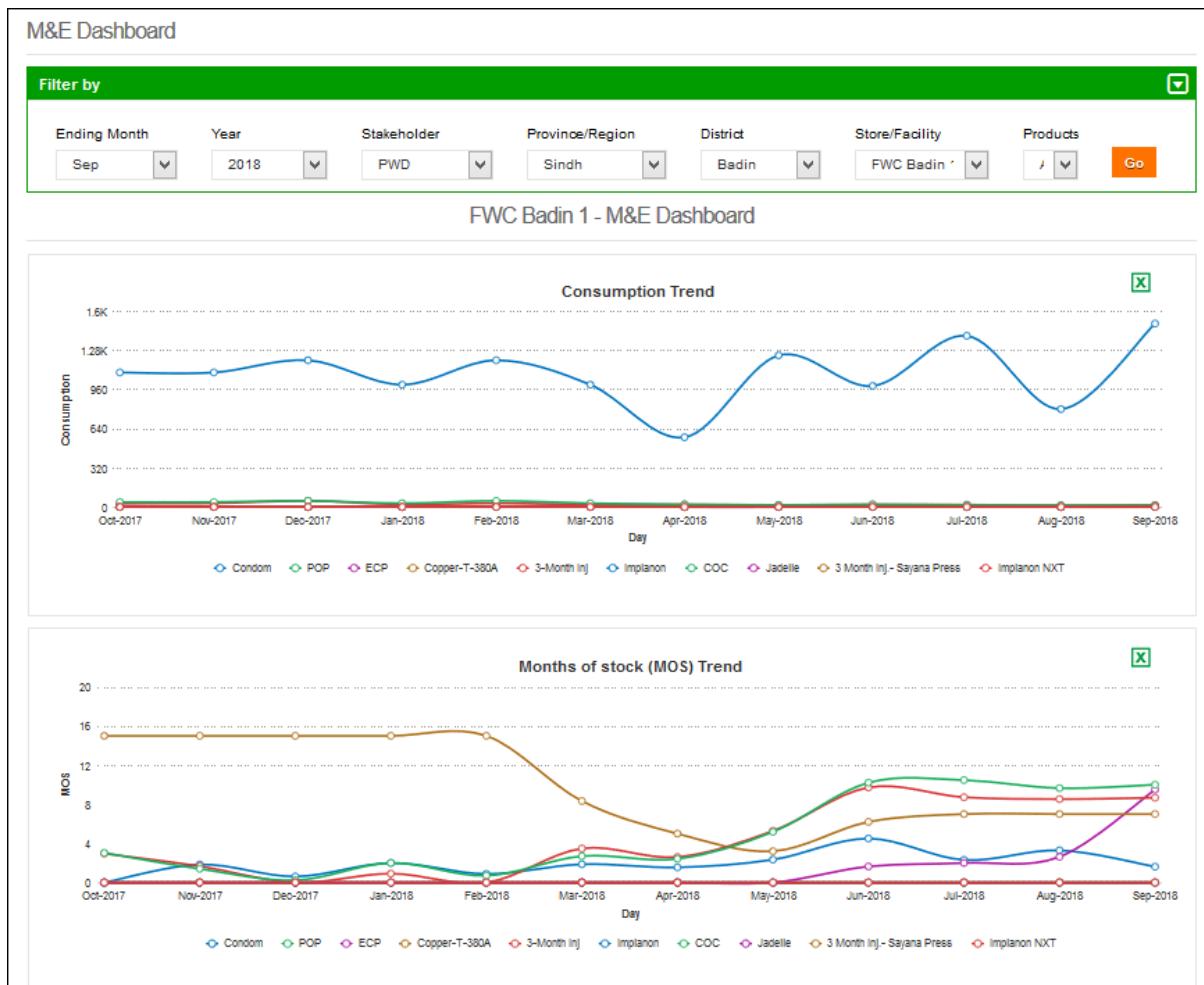

Reporting Status : Attock - PWD				
Sr No	Stakeholder	HF Type	Warehouse	Status
1	PWD	RHS-A/FHC	FHC DHQ Attock	✓
2	PWD	RHS-A/FHC	FHC THQ Hazro	✓
3	PWD	RHS-A/FHC	FHC THQ Fateh Jang	✓
4	PWD	RHS-A/FHC	FHC THQ Pindi Gheb	✓
5	PWD	RHS-A/FHC	FHC THQ Jand	✓
6	PWD	FWC	FWC AttockCity.	✓
7	PWD	FWC	FWC Attock Cantt	✓

The user can view the following information:

- **Stakeholder:** displays the stakeholder.
- **HF Type:** displays the type of the health facility, e.g., RHS, FWC, etc.
- **Warehouse:** displays the area where the warehouse is located.
- **Status:** displays the reporting status.

## M&E Dashboard

This report has been designed for monitoring and evaluation to view trends of stock consumption and months of stock (MOS) in time series format.

To view the M&E Dashboard report:

- **Ending Month:** specify the ending month. The report will be generated as a time series for a 1-year period with the specified months the ending month.
- **Year:** specify the year.
- **Stakeholder:** specify the stakeholder.
- **Province/Region:** select province.
- **District:** specify the district.
- **Store/Facility:** specify the store or facility.
- **Products:** select an option from the product drop-down list.

Click **GO** to generate the report.

The consumption and months of stock trends for a 1-year period are displayed for the selected filter options.

# USAID Supported Stock

The USAID Supported Stock enables the users to view the USAID funded stock available in each province. The stock data is available for each product, and stakeholder quota for each product.

Filter by													
Last Date 2019-03-14 <input type="button" value="Go"/>													
Distribution of USAID supported commodities by PPW – MoNHSR&C

**Disclaimer:**  
The SDPs having Zero SOH are considered to be stock out in this report.  
The following facility types are NOT included in the calculation of this report: MSU, Social Mobilizer, RHS-B, RMPS, Hakeems, Homopaths, PLDs, TBAs, Counters, DDPs.

## MOS Trend Graph

The Months of Stock (MOS) Trend Graph MOS Trend graph enables decision makers to view time series trend of Stock on Hands and Months of Stock side by side for a selected district, product and stakeholder to support supply chain managers to optimize stock based on trend.

To view the MOS trend, the user can use the filter panel:

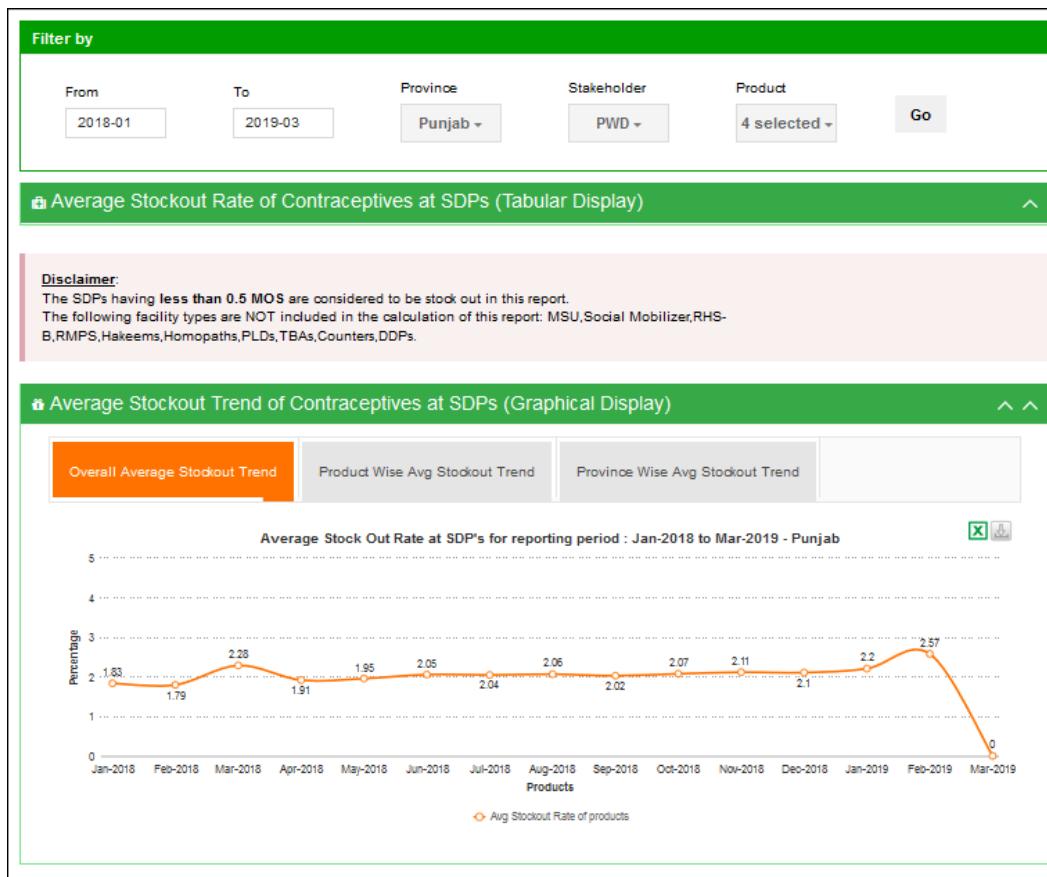

- From, To:** select date range using the date picker tool.
- Province:** select a province from the drop-down list.
- District:** select a district from the drop-down list.
- Stakeholder:** select a stakeholder from the drop-down list.

Click **GO** to populate the report.

The MOS/SOH trend displays for the selected product.

## Stock Out Trends

Average stock out trend provides decision makers to take preventive and corrective measures to avoid stock outs. This trend report has four tabs: Overall Stock out trends, Product wise, Province Wise and yearly stock out trends.

To view the Stock Out trend, the user can use the filter panel:

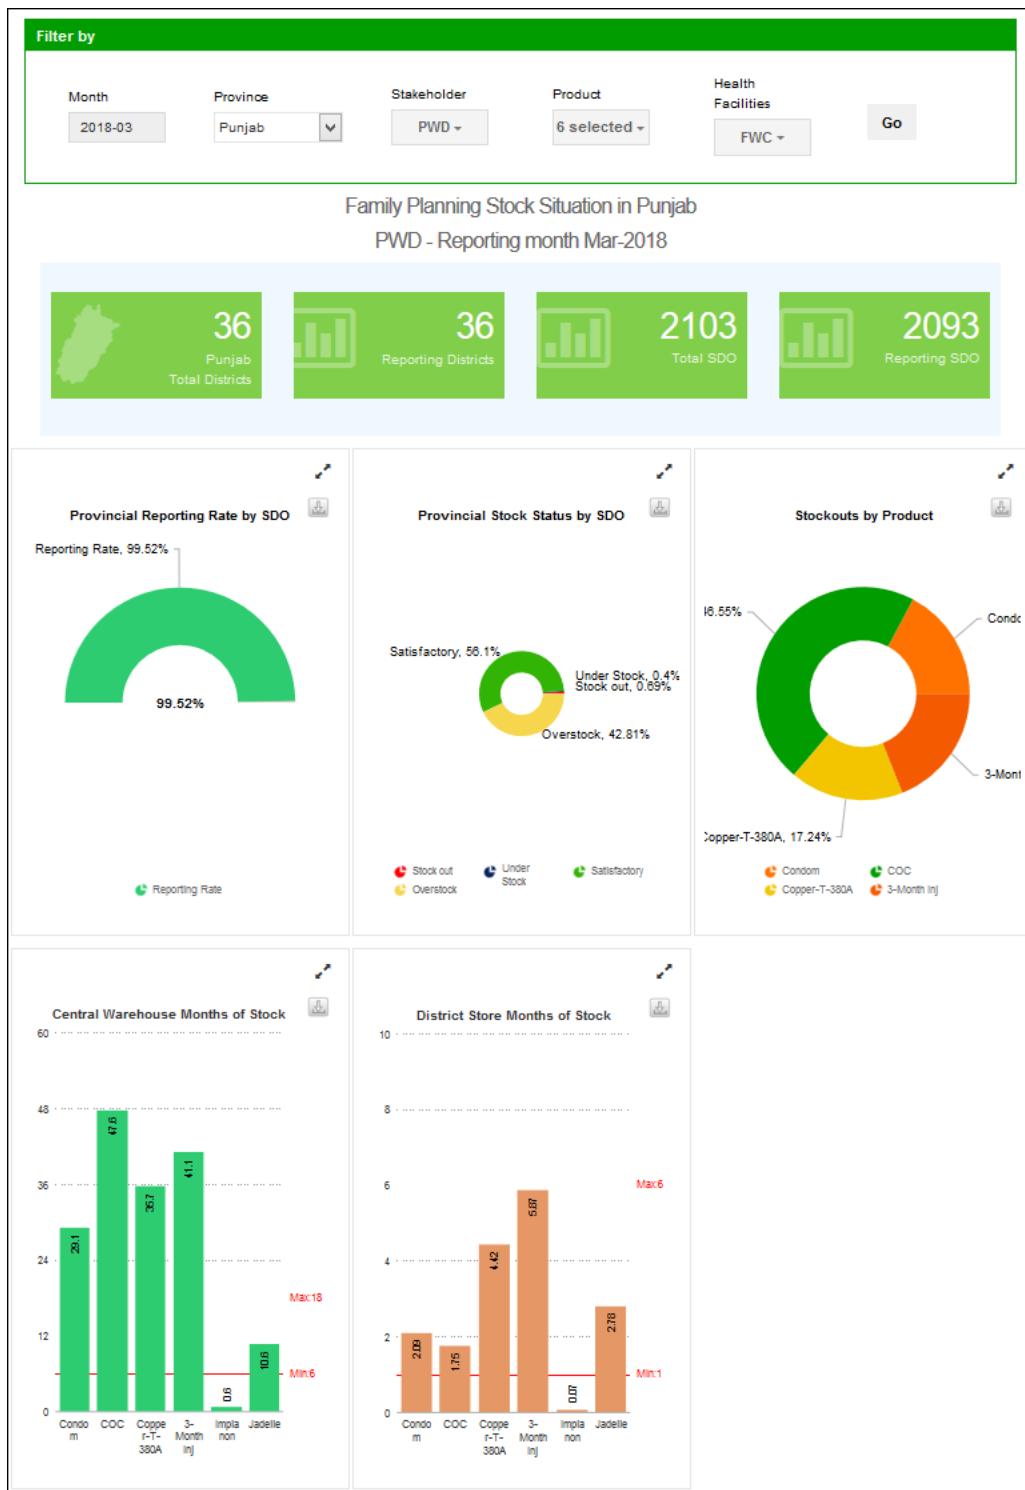

- **From, To:** select date range using the date picker tool.
- **Province:** select a province from the drop-down list.
- **Stakeholder:** select a stakeholder from the drop-down list.
- **Product:** select a product from the drop-down list.

Click **GO** to populate the report.

The Stock Out Trends graph displays for the selected product.

## Stock Situation Dashboard

Stock situation dashboard is designed for commodity security champions to extract provincial stakeholder wise analytics, do the root cause analysis and recommend preventative and proactive actions for decision makers. This is comprehensive dashboard that covers, reporting rate, stock statuses, stock out ratios, stock at central and district stores.

To view the Stock Situation, the user can use the filter panel:

- **Month:** specify the month.
- **Province:** select a province from the drop-down list.
- **Stakeholder:** select a stakeholder from the list. You can select multiple options.
- **Product:** select a product from the drop-down list.
- **Health Facility:** specify the health facility.

Click **GO** to populate the report.

The Family Planning Stock Situation in the selected province displays in form of multiple graphs.

## Stock Optimization

To provide an “In built decision intelligence” in LMIS system, “Stock Optimization” functionality has been developed and embedded in LMIS. As a first step, “Stock Optimization” suggests the end user on how over stocked SDPs’ quantities can fill the stock gaps at understock or zero stock SDPs? End user can take decisions based on system’s suggestions.

# Chapter 2: Reports

This chapter proves an overview of the different types of reports available in Contraceptive Logistics Management Information system.

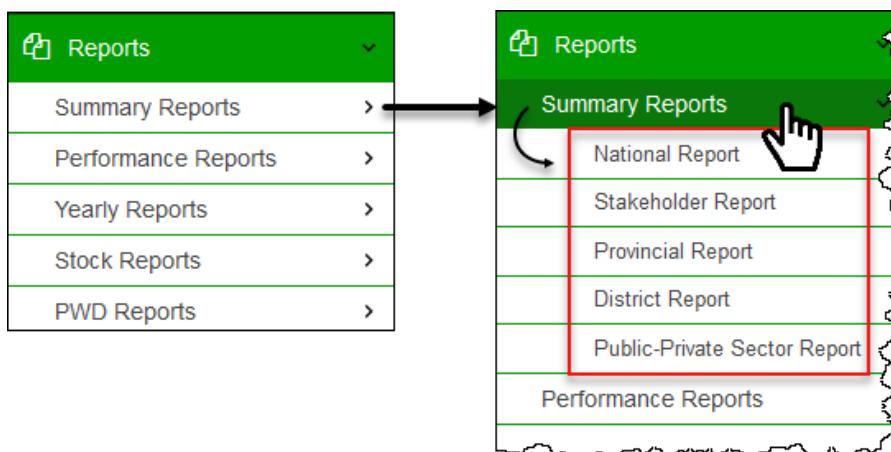

## In this chapter, you will learn about:

1. Summary Reports
2. Performance Reports
3. Yearly Reports
4. Stock Reports
5. PWD Reports

## About Reports

The **Reports** tab displays the list of reports available in cLMIS. These reports include National, Provincial and District level Reports of both public and private sectors. It also includes Stakeholder Reports, Summary Reports, Field Reports and Stock Availability Reports. The Quarterly and Provincial Reporting Rates have are also available.

Click the **Reports** tab from the main menu to show a drop down list which includes a range of reports, as shown in the image below:

Users can view the list of reports from the menu and click on each report to see the data in a tabular form, as shown in the image above.

# Summary Reports

This report provides the information about the consumption, average monthly consumption (AMC), quantity on hand of all products and month of stock (MOS) for each product for different levels.

## National Report

The National Summary Report provides periodic consumption, average monthly consumption (AMC), stock on hand (SOH), months of stock (MOS) and couple years of protection (CYP) for each commodity for a particular month. The data is summed up for all stakeholders as well as the public and private sector in each commodity at the national level.

The screenshot shows the 'National Report for February 2019'. At the top, it displays reporting and availability rates for Field and District Store levels. Below this is a 'Filter by' section with dropdowns for Month (February), Year (2019), and Sector (Public). A 'GO' button is present. The main content is a table titled 'National Report - Public Sector Stakeholders (February 2019)' with columns for Sr. No., Product, Consumption, AMC, Stock On Hand, Month of Stock, and CYP. The table lists various contraceptive products with their respective values. At the bottom, a note states: 'Note: This report is based on data as on 10/03/2019 08:48 AM'.

Sr. No.	Product	Consumption	AMC	Stock On Hand	Month of Stock	CYP
1	Condom	9,553,155	12,155,365	202,071,072	16.6	82,345
2	POP	3,041	6,474	24,639	3.8	203
3	COC	666,682	802,509	16,606,785	18.8	44,445
4	ECP	31,084	31,124	566,479	18.2	1,554
5	Copper-T-380A	88,674	93,534	1,671,813	17.5	407,900
6	5-Month Inj	238,064	345,513	5,127,101	14.8	74,741
7	Implanon NXT		23	15	1,542	118.6
8	Implanon		277	462	2,042	4.4
9	Jadelle		4,426	4,874	17,778	3.6

The **Header bar** displays the Reporting Rate i.e., rate of stores reported on the left side while on the right side, the Availability Rate i.e., rate of stock available is shown.

The Reporting Rate displays the warehouse stores which have reported for the selected month.

The Availability Rate displays the stock availability rate at the selected level, i.e., National, Provincial or District levels.

Users can click the icon to open the Reporting Rate and Stock Availability rate reports directly. MOS legends display the MOS Stock values. A black box represents an Unknown value. You can use Month and Year filters to find values based on these time frames.

MOS:	<span style="color: red;">■</span> Stock Out	<span style="color: blue;">■</span> Under Stock	<span style="color: green;">■</span> Satisfactory	<span style="color: lightblue;">■</span> Over Stock	<span style="color: black;">■</span> Un-known
Month	Year	Sector			
June	2017	<input type="button" value="GO"/>			

The Report Table contains the following items:

- **Product:** Displays the list of products.
- **Consumption:** Displays the consumption data of contraceptives for the last reported month. The data for each product is the sum of all reporting levels.
- **Average Monthly Consumption (AMC):** This is calculated as average of aggregated consumption of the last three, non-zero, consumption months.
- **Stock on Hand (SOH):** the amount of product on hand. Knowing this helps monitor stock positions and anticipate stock outs in advance.
- **Months of Stock (MOS):** The estimated number of months the stock will last. This calculation is based on average monthly consumption.
- **Couple Years of Protection (CYP):** The estimated protection provided by contraceptive methods during a one-year period, based upon the volume of all contraceptives consumed during that period.

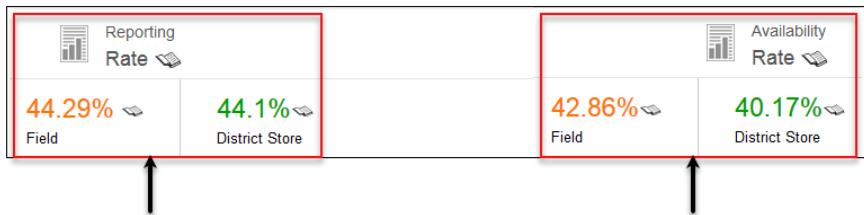

## Stakeholder Report

This provides information about periodic consumption and average monthly consumption of individual stakeholders for both public and private sector, for the selected product.

National Summary Report by Stakeholder for February 2019																																														
This report provides the information about consumption and average monthly consumption of all stakeholders for the selected product. <a href="#">Click here</a> for details

Filtering options are also available on the basis of month, year, and product as shown in the “Filter by” menu.

The Header bar displays the Reporting Rate i.e. rate of stores reported on the left side while on the right side, the Availability Rate i.e. rate of stock available is shown. You can click the  icon to open the Reporting Rate and Stock Availability rate reports directly.

The Reporting Rate displays the warehouse stores which have reported for the selected month.

The Availability Rate displays the stock availability rate at the selected level, i.e., National, Provincial or District levels.

You can use **Month**, **Year**, and **Product** filters to filter values in the table.

Month	Year	Product	GO
April	2016	Condom	<b>GO</b>

The Report Table for the Stakeholder Summary Report contains the following items:

- **Stakeholder:** Displays the list of identified stakeholders. By clicking on any of the stakeholders the province wide summary for that particular stakeholder will appear.
- **Consumption:** Displays the consumption data of contraceptives for the last reported month. The data for each contraceptive is the sum of all reporting levels.
- **Average Monthly Consumption (AMC):** Is calculated as an average of aggregated consumption of the last three, non-zero, consumption months.

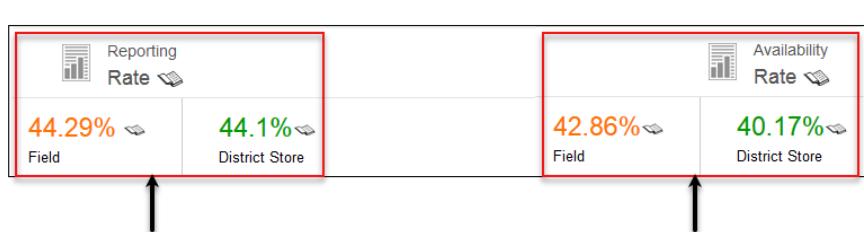

## Provincial Report

The Provincial summary report provides periodic consumption, average monthly consumption (AMC), stock on hand (SOH), months of stock (MOS) and Couple Years of Protection (CYP) for each commodity in a particular month. The data is summed up for all stakeholders in the public and private sectors, for each commodity, at the provincial level.

This screenshot shows the Province/Region Report for February 2019. It includes a header with a link to details about consumption, average monthly consumption (AMC), quantity on hand, and months of stock (MOS) for each product at the Provincial Level. Below the header are two charts: 'Reporting Rate' and 'Availability Rate'. The 'Reporting Rate' chart shows Field at 82.35% and District Store at 79.71%. The 'Availability Rate' chart shows Field at 82.35% and District Store at 72.46%. A green 'Filter by' bar allows filtering by Month (February), Year (2019), Sector (Public), Stakeholder (PWD), and Product (Condom). An orange 'GO' button is present. At the bottom is a table titled 'Province/Region Report for Sector = "Public" Stakeholder(s) = "PWD" And Product = "Condom" (February 2019)'. The table has columns for Sr. No., Province/Region, Consumption, AMC, Stock On Hand, and Month of Stock. The data rows show consumption and stock information for various provinces: Punjab, Sindh, Khyber Pakhtunkhwa, Balochistan, AJK, FATA, Gilgit-Baltistan, and Islamabad. A note at the bottom states: 'Note: This report is based on data as on 12/03/2019 08:49 AM'.

The Provincial Summary Report not only provides the summary statistics but also opens up various options for users to further explore the data through various links.

The Header bar displays the Reporting Rate i.e. rate of stores reported on the left side while on the right side, the Availability Rate i.e. rate of stock available is shown. You can click the  icon to open the Reporting Rate and Stock Availability rate reports directly.

The Reporting Rate displays the warehouse stores which have reported for the selected month.

The Availability Rate displays the stock availability rate at the selected level, i.e., National, Provincial or District levels.

MOS legends display the MOS Stock values. A black box represents an Unknown value. You can use Month, Year, Sector, Stakeholder and Product filters to filter values.

MOS:	Stock Out	Under Stock	Satisfactory	Over Stock	Un-known
Month

<b>GO</b>					

The Report Table for the Provincial Summary Report contains the following items:

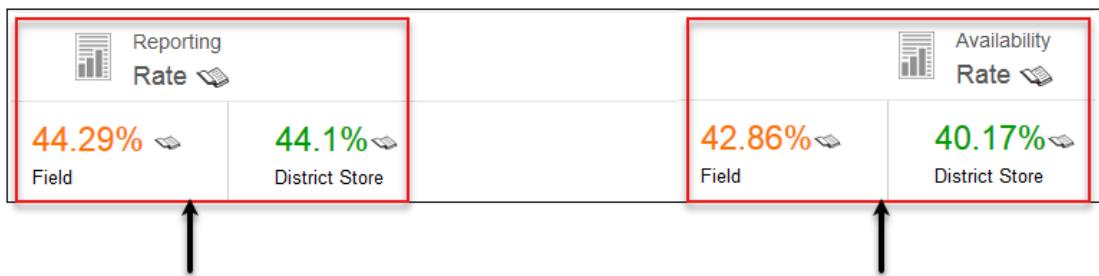

- **Province:** Displays the list of provinces. By clicking on any of the provinces listed in Provincial Summary Report, the district wide summary of that particular stakeholder will appear.
- **Consumption:** Displays the consumption data of contraceptives for the last reported month. The data for each product is the sum of all reporting levels.
- **Average Monthly Consumption (AMC):** Is calculated as an average of the aggregated consumption of the last three, non-zero, consumption months.
- **Stock on Hand (SOH):** Is the amount of product on hand. This data is used to monitor stock positions and anticipate stock outs in advance.
- **Months of Stock (MOS):** The estimated number of months the stock will last. This calculation is based on average monthly consumption.

## District Report

This report provides periodic consumption, average monthly consumption (AMC), stock on hand (SOH), months of stock (MOS) and couple years of protection (CYP) by each commodity for a particular month. The data is summed up for all public and private sector stakeholders for each commodity to the district level.

## Performance Reports

The performance reports provide information related to the performance of the reporting sites, like reporting districts, district and health facility compliance report, quarterly reporting rate, provincial reporting rate and inventory turnover report.

### Non/Reported Districts

This report provides information and related statistics about the district's reporting status. Various filters are available to drill-down data based on sector, stakeholder, province, district and even reporting type.

All Reported Stores/Facilities Report for January 2019

This Report provides the reporting rate of District Stores, Field Stores and Health Facilities which have reported or not reported for a particular month. If "all" is selected from the option "Type", all level stakeholders for a particular month will appear in the list. This report also provides the list of on-time and late reported Stores/Facilities. [Click here](#) for details

Note: This report is based on data as on 12/03/2019 11:20 AM

The user can specify **Month** and **Year** and then click **Go** to view the report.

## Inventory Turnover

This report provides the inventory turnover analysis for selected geographical level.

The user can specify **Ending Quarter**, **Year**, **Sector**, **Stakeholder**, **Product** and then click **Go** to view the report.

## Yearly Reports

### District Stock Yearly Report

This report shows month wise stock issued or received for any stakeholder in a particular district of a province for the previous year. Users are provided with a set of filters that are helpful to extract data by province, month, year, or stakeholder. Different filters provide options to show received or issued stock.

District Stock On Hand Yearly Report for Sector = 'Public' Stakeholder(s) = 'PWD' Province/Region = All And Product = 'Condom'

Users can filter data on the basis of month, year, province, stakeholder, product and indicator. There are four indicators present which include:

**Issue:** Stock issued from district stores to health facilities (field)

**Receive:** Stock received from central warehouse in Karachi

**Consumption:** Stock issued to the end users from health facilities in the district

**CYP:** Couple Year Protection caused by the contraceptive methods

**Stock on Hand:** Stock present in all stores (district and health facilities) in the district.

## Central/Provincial Warehouse Report

This report shows the monthly values of different inventory indicators i.e. Issued, Stock on Hand and received stock of stakeholder's central or provincial warehouse / stores. User can filter report on the basis of month, stakeholder and type of store i.e. Provincial and Central warehouse.

Central/Provincial Warehouse Report for 2019

This report provides the monthly values of different inventory indicators i.e. Issued, Stock on Hand and received stock of stakeholder's central or provincial warehouse / stores. [Click here](#) for details

Note: This report is based on data as on 12/03/2019 11:39 AM

The report shows the in-country available stock based on filters applied at all levels of the supply chain. Stocks are also translated in months of stock calculated from Average Monthly Consumption. Separate months of stock (MOS) for field and store are provided in addition to the aggregate for the two. In this report, only those stores appear which have reported for the period selected.

## Field Availability Report

This report provides the information about the average monthly consumption (AMC), quantity on hand of all products and month of stock (MOS) for each product at health facility level

## Projected Contraceptive Requirements

This report shows the projected contraceptive requirement for a selected product in each district based on the previous consumption of the product. Users can select the ending month, year, demand for number of months, type, stakeholder and province to estimate the contraceptive requirement for each district. The report shows average monthly consumption (AMC), stock available in the district store, at the field and sum of the two for the selected ending month. It also shows desired stock level for 3 months and the requested replenishment stock for the selected store.

Projected Contraceptive Requirement

This report provides the projected contraceptive requirement for a selected product in each district based on the previous consumption of the product. The report shows average monthly consumption (AMC), stock available in the district store, at the field and sum of the two for the selected ending month. It also shows desired stock level for 3 months and the requested replenishment stock for the selected store. [Click here](#) for details

# Shipment Record

This report allows user to view stock issue and received with reference to shipment from upstream warehouse. This report shows month wise receive and issue of stock on the basis of selection of ending month and year by end user. This report helps to see the trend for stock receive and issuance.

The screenshot shows a 'Shipment Report' window. At the top, there's a 'Filter by' section with dropdowns for 'Ending Month' (March), 'Year' (2019), and 'Office Type' (Central), along with a 'GO' button. Below this is a table titled 'Central As on 19/03/2019'. The table has columns for 'Oct-18', 'Nov-18', 'Dec-18', 'Jan-19', 'Feb-19', and 'Mar-19', each with 'Receive' and 'Issue' sub-columns. A single row is visible for 'CWH (CWS-II) - Karachi'. At the bottom, a note states: 'Note: This report is based on data as on 19/03/2019 11:52 AM'.

## Country-Wide Distribution

This report provides information related to stock distribution. It provides granular information of stock distribution up to specific batch, expiry, pick, delivery date and mode of transportation. This report helps to reconcile the stock picked and stock received at the recipient end.

The screenshot shows a 'Contraceptive Distribution Report' window. At the top, there's a 'Filter by' section with dropdowns for 'Province' (All), 'District' (All), 'Stakeholder' (All), and 'Product' (All), along with a 'Date From' (01/10/2018) and 'Date To' (31/12/2018) range, and a 'Transportation Mode' (All) dropdown, with a 'GO' button. Below this is a table titled 'Contraceptive Distribution Report for Province/Region = "All" District = "All" Stakeholder = "All" Product = "All" From "01/10/2018" To "31/12/2018"'. The table has columns for S. No., Province, District, Stakeholder, Product, Batch, Quantity, Cartons, Pick Date, Deliver Date, Expiry Date, Transportation Mode, and Remarks. Multiple rows of data are listed, such as 'Punjab' entries for 'Attok' and 'Bahawalnagar' districts. At the bottom, a note states: 'Note: This report is based on data as on 19/03/2019 12:02 PM'.

## Procurement Planning Management Report

The Procurement Planning and Monitoring Report (PPMR) describes stock status of contraceptive products. Data is reported by trained cLMIS operators of Public and Private sector stakeholder. Shipment data is pulled from RHI (i.e. <https://www.myaccessrh.org>)

## PWD Reports

When a user clicks the Pakistan Bureau of Statistics Reports (**PBS Reports**) tab, the application shows the list of all available reports for PBS. These reports include Provincial level Reports for all methods such as Form-14, CLR-11, Sales Performance Reports (SPR-1 and 2) and the PWD-3 Report.

Click the **PBS Reports** tab from the main menu to show a drop-down list:

## Form-14

Form -14 is the provincial summary report for contraceptive performance delivery services at the service outlets. It shows the report for all methods with the name of service outlet as well as the number of outlets in the selected province.

Provincial Summary of Contraceptive Performance Delivery Services by Category of Service Outlets

## District Reports

cLMIS User Guide

55

When a user clicks the **District Reports** tab, the application shows the list of all available reports at the district level. These reports include Provincial level Reports for all methods such as SPR-8, SPR-9, SPR-10, SPR-11 and CLR-15.

Click the **District Reports** tab from the main menu to show a drop-down list:

SPR-8

SPR – 8 is the Sales Performance Report for new and old clients at the district level. It shows the client-based report for all contraceptive methods being used in all health facilities in the selected district of the selected province.

SPR-9

SPR - 9 is the Sales Performance Report based on the performance (the number of contraceptive methods sold) at the district level. It shows the performance report for all contraceptive methods in all health facilities in the selected district of the selected province.

# Chapter 3: Monthly Reports

This chapter explains the cLMIS Monthly Reports.

**In this chapter, you will learn about:**

1. **cLMIS Monthly Reports**
2. **My Reports**
3. **cLMIS Explorer**

## About Monthly Reports

The Monthly Reports enables the user to view data for the reports of their own districts and sub districts, and also for other districts and the sub districts assigned to them by using the following reports:

- My Reports
- cLMIS Explorer

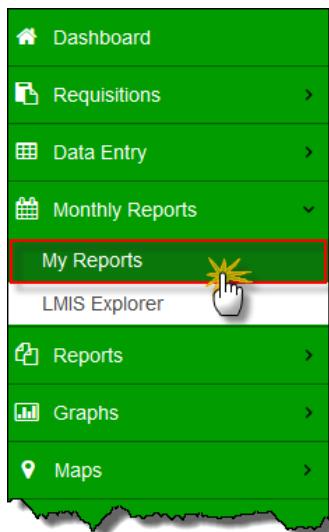

## My Reports

Using the My Reports feature, users can view the data reported by their own district stores and health facilities for a selected Month/Year.

To open My Reports:

- I. In the cLMIS Sidebar, click **Monthly Reports** and then select **My Reports** from the drop-down menu.

## User Manual

The monthly report page displays.

**View Monthly Store/Facility Report**

**Filter by**

Month	Year	Store/Facility
JANUARY	2015	Peshawar Field

**Go**

2. Select the filter options and then click **Go**.

**View Monthly Store/Facility Report**

**Filter by**

Month	Year	Store/Facility
FEBRUARY	2015	Peshawar Field

**Click Go**

**Select Month, Year and Facility**
